The bonds form part of a total authorised of (now £10,500,000), of which £7,160,000 has been issued, have interest payable June 1 and December 1 (see below for funding scheme), and are repayable at par in 1961. Provision is made for a sinking fund, for the redemption of the bonds at maturity, to be constituted by annual payments thereto commencing on June 1, 1927, and terminating on December 1, 1961, and such fund is to be applied to drawings, but the company has reserved power to purchase bonds at or under par, or to repay the whole or any part of the issue, at any time, on six months' notice, at 105 per cent. plus accrued interest, which is also to be the price of redemption in the event of voluntary liquidation or amalgamation. The principal and interest on the bonds are payable at the Bank of Scotland, 30, Bishopsgate, E.C., and at such other places as the company may from time to time appoint, the company having undertaken to pay all state, provincial or municipal taxes to which the bonds and coupons are or might be liable in Canada or Spain, as well as all the taxes to which the bonds and coupons are at present liable in France. The bonds are to bearer, but may be registered as to principal only at the company's London office, and re-exchanged into bearer bonds, on payment of a fee of 1s. per bond for each operation. The company defaulted in the payment of interest due on the 5 per cent. first mortgage bonds on December 1, 1914, and in January, 1915, the company passed into the hands of a receiver. Subsequently a committee of bondholders was appointed, as follows:—H. F. Parshall (Chairman), R. Fleming, A. E. Baker, Hon. G. Johnstone, J. W. Bowhill, C. D. Seligman and E. R. Peacock. In June, 1915, the bondholders agreed to modifications of the trust deed, under which the interest on the bonds due December 1, 1914, to June 1, 1918, both inclusive, is to be met in 5 per cent. ten-year notes, having no charge upon the property, but redeemable by five instalments of 20 per cent. each during the last five years of the currency of the notes, either in cash or, at the option of the company, by the issue of an equivalent amount of 5 per cent. first mortgage bonds, while the interest on the notes (payable June 1 and December 1) is to be satisfied down to and including June 1, 1918, by the issue of an equivalent amount of like notes; the commencement of the operation of the sinking fund for the 5 per cent. first mortgage bonds has been postponed until June 1, 1927; and 7 per cent. prior lien bonds for £4,000,000 have been created, half series A and half series B. Interim scrip carrying compound interest for the 5 per cent. notes is delivered at the offices of the company in Toronto and London, against surrender of the interest coupons as they mature on the 5 per cent. bonds; the interim scrip is exchangeable for definitive 5 per cent. notes on and after June 1, 1918. The B prior lien bonds were to be used in funding various advances.

The A bonds are of £100 each, with their value in dollars also expressed on them, have priority over the 5 per cent. first mortgage bonds, and are specially secured by (inter alia)—a first mortgage for 50,000,000 pesetas on all the mortgagable property of the Ebro Irrigation and Power Company, Limited, with a specified exception, and a first charge on bonds, preference and ordinary shares of allied subsidiary companies which have been acquired by the Barcelona Company; coupons are payable June 1 and December 1, and the bonds are to be redeemed at 110 per cent. on June 1, 1965, by means of a sinking fund to commence in 1925, to be applied in annual drawings at 110 per cent., or in the purchase of bonds below 110 per cent., or the whole or any part of the issue may be redeemed at 110 per cent. plus accrued interest at any time on six months' notice. The bonds are to bearer, but can be registered as to principal only at the London office on payment of a fee of 1s. per bond, and

registered bonds can be converted back into bonds to bearer on payment of the same fee. The whole of the prior lien B bonds has been issued to fund various advances; the interest dates and redemption particulars for these B bonds are similar to those for the A bonds, except that interest on the B bonds down to June 1, 1918, is to be funded into notes similar to those issued and to be issued against coupons on the 5 per cent. first mortgage bonds, as stated above. Wittenoom, K.C.M.G. *Secretary:* C. W. "One of the principal objects of the company is the development of a new source of supply for Bovril, Limited, from Australasia, and the company has entered into a contract for a long period of years with Bovril, Limited, entitling Bovril, Limited, to the supply of the whole of the beef extract produced by this company."

In October, 1913, a circular was issued to the shareholders in which the directors stated that, although the position and prospects of the company were improving, the directors could not in the existing conditions hope to realise sufficient profits to pay dividends, and at the same time provide the sum of £18,000 per annum, commencing in June, 1914, in redemption of the then existing mortgage of £90,000. An arrangement was come to by which, in association with the Estates Control, Limited (which is a subsidiary of Bovril, Limited), the board submitted a scheme for the provision of further working capital, and this scheme was duly approved and has been carried out. Unissued preferred ordinary shares of £1 each to the number of 5,000 were subdivided into deferred shares of 1s. each, and these deferred shares have been amalgamated with the pre-existing deferred shares for £5,000; the Estates Control, Limited, undertook to guarantee, without right of recovery, 6 per cent. dividends on the preferred ordinary shares for the years 1913, 1914, 1915 and 1916, and further to subscribe or procure subscriptions for £100,000 of debentures of Bovril Australian Estates, Limited, the proceeds to be applied in discharge of the existing mortgage. There are also 5 per cent. debentures of £100 each for £100,000, issued in November, 1913, at 91 per cent., interest being payable on May 31 and November 30, while the debentures are to be repaid at 105 per cent. on November 30, 1923, but may be redeemed at 105 per cent. at any time previously on six months' for £100,000, £48,200 has been paid up in full, and on the remaining £51,800 35 per cent. has been notice from the company, or may be purchased by the company at less than 105; of the debenture paid, and the balance will be called up as required to meet the annual instalments of the above mentioned mortgage for £90,000, the amount of which now outstanding is £54,000.

The accounts are made up annually to December 31, and submitted in November. The preferred ordinary dividend is paid in December and July in respect of the six months ending on the previous June 30 and December 31 respectively, and has been met to December 31, 1914, while that for the half year to June, 1915, is to be paid before the close of December, 1915. In 1914 the net profit, after meeting interest charges, was £23,020, and the preferred ordinary dividend for the year required £7,517, there being then an accumulated credit to profit and loss of £64,196, subject to realisation of stock as valued and to balance of preferred dividend for 1914, paid in July, 1915.

Voting power, one vote for each share of either class. Director's qualification, 250 preferred ordinary shares, to be acquired within two months of appointment. Transfer form, common; fee, 2s. 6d. Telegraphic address (inland), Ebbaculora, London. Telephone number, 4590 London Wall.

Cleaver. *Head Office:* Montreal, Canada.—The company was registered under the laws of the Dominion of Canada on January 9, 1911, to acquire timber licences, renewable from year to year at the option of the holder as long as there is merchantable timber on the property, granted by the government of British Columbia, over an extensive area in the province of British Columbia, together with two large sawmills, planing mills, &c., and in 1912 a further mill was completed. The authorised capital is $20,000,000 in shares of $100, half being 6 per cent. cumulative participating preference, and half ordinary; the preference shares have a priority as regards capital, and are to participate rateably with the ordinary shares in all dividends after 6 per cent. per annum has been paid on both classes, and are also entitled on a winding-up to participate rateably with the ordinary shares in the surplus assets after repayment of capital and dividends or interest at 6 per cent. per annum on both classes. Of the preference capital $8,860,400, and of the ordinary shares $9,931,500, have been subscribed and called up; $4,000,000 of the preference shares were offered here in June, 1911, through Parr's Bank, Limited, 4, Bartholomew Lane, E.C., at par, of which $2,500,000 had been subscribed for prior to the issue of the prospectus, while when the shares offered here were fully paid the holders were entitled to receive from the vendors one fully-paid ordinary share in respect of every ten preference shares held. There is also an issue of collateral gold notes (see below).

At December 31, 1913, the corporation had liabilities totalling $807,192, of which $352,669 consisted of bank loans, while the balance was made up of some bonds, purchase money owing, notes payable, &c. A committee of holders of preference shares was formed and now consists of the following:—Messrs. J. Christie Reid (Chairman), A. H. Barker, H. W. Birks, R. Davidson, Sir A. T. Dawson, Major G. Noble, J. J. Reid, A. A. Shand and T. J. Whiffen; the secretary to the committee is Mr. A. W. R. Lovering, and the office of the committee is at 3, Crown Court, Old Broad Street, E.C. The committee, having considered the position of the corporation, recommended the preference share-

holders to subscribe for an issue of $3,000,000 8 per cent. registered secured notes, having interest payable April 1 and October 1, and the principal repayable at 107 per cent. on December 31, 1916, with power to the corporation to redeem them in whole or in part at the same price at any time previously on three months' notice; the notes, of which $1,219,250 has been issued, are secured by the deposit of $3,500,000 6 per cent. first mortgage debentures of the corporation. The interest on these notes was duly paid on April 1, 1914, but default took place on October 1, 1914, and towards the end of January, 1915, Mr. R. W. Middleton, of Messrs. Price, Waterhouse and Co., Vancouver, British Columbia, was appointed receiver and manager. In April, 1915, the receiver came to the conclusion that, in order to save the property (there being charges for about $300,000 ranking before the note holders) further funds were necessary, and an issue of £110,000 of 7 per cent. receiver's certificates is being made in England and Canada to meet the charges and to provide funds for current expenses.

The accounts are made up annually to December 31, and submitted in April. For the year 1911 there was a surplus of $166,120, out of which the dividend was paid on certain preference shares, being the shares other than those allotted to underwriters, on which dividends have been waived (the dividend for the quarter to December 31, 1911, was not paid till July, 1912); for 1912 there was no distribution on either class of shares, profits having been affected by adverse markets; and for 1913 there was again no distribution on either class of shares, a credit balance of $20,058 brought down having been converted by the close of the year, after meeting interest charges, into a debit of $464,616. No accounts are to be published in respect of 1914, but this notice has been officially revised by the secretary to the committee.

In October, 1915, it was reported that the company's mill in New Westminster had been sold by the liquidator for $1,000,000.

The prior lien debenture holders and first charge debenture holders each appoint one-third of the board. *Secretary:* H. Folliott. *Office:* Thames House, Queen Street Place, E.C.—The company was registered August 1, 1902, to "construct, equip, maintain and work railways, &c., carry on the business of general carriers, shipowners, also agricultural and mining developments in connection with their freehold lands in the British Central Africa Protectorate." The Shiré Highlands Railway, Nyasaland, Limited, acquired from the British government a concession to construct and work a railway from Port Herald to Blantyre, and thence to a point on Lake Nyasa, a total length of about 230 miles; the first section of 113 miles (Port Herald to Blantyre) has been constructed by the British Central Africa Company in consideration of the payment by the railway company of £4,750 per mile in debentures of the railway company, and the whole of its authorised share capital of £100,000, besides certain land grant or the equivalent in cash (viz., £180,800), and the debentures of the British Central Africa Company were specially secured by the deposit with trustees of the debentures of the railway company, besides the other assets of the British Central Africa Company, consisting of—the Nyasaland estates of about 361,600 acres, with buildings, coffee plantations, &c., thereon, and the land grant to be received in respect of the railway as above, the company's flotilla of steamers, &c. In March, 1913, negotiations were completed under which the company sold to the Nyasaland government the subsidy lands of 361,600 acres received in connection with the construction of the Shiré Highlands Railway for £180,800, of which £165,000 has been received, and the balance is due on the completion of the Central Africa Railway now under construction. The company has sold to the Central Africa Railway Company its concessions from the Portuguese government and the Nyasaland government for the construction of the railway from Port Herald to the Zambesi for 100,000 ordinary shares of 5s. each of the Central Africa Railway Company, while in addition the company holds 49,782 4 per cent. £1 preference shares in that concern. The company has acquired the undertaking of Sharrer's Zambesi Traffic Company, Limited, and is also engaged in the cultivation of cotton, tobacco, coffee, &c., and has trading stores. The following issues have been made:—

£1,000,000 Shares of £1 each, being the total amount authorised. No dividend was to be paid on the share capital until all the A and B profit certificates had been redeemed (effected on February 1, 1912).

£350,000 Five per cent. prior lien debentures to bearer of £100 each, issued in 1905 and since at par, with interest payable June 30 and December 31, and the principal repayable at par on December 31, 1933; a cumulative sinking fund of 2 per cent. per annum, commencing October, 1910, was to be applied to drawings at par, or to purchases if at or below par. In May, 1910, however, interest payments being already in arrear, the prior lien debenture holders consented to forgo all claims for interest on their debentures up to and including December 31, 1915, and agreed that, as from December 31, 1915, the interest on their debentures for each year shall only be payable out of the profits of the company for that year, but in priority to any interest for the year on the 5 per cent. first charge debentures, and at the same time released the company from its obligation to form a sinking fund for the redemption of the prior lien debentures.

£650,000 Five per cent. first charge debentures to bearer of £100 each, of which £400,000 was issued in February, 1903, at 96 per cent., and the balance was issued in 1910 in satisfaction of a pre-existing loan of £200,000. The company has power to issue further debentures up to the nominal amount of the share capital. Interest is payable June 1 and December 1, and the principal is repayable at par June 1, 1930, while the company reserves the right to redeem all or any of the debentures at any time at 5 per cent. premium on six months' notice, and in the event of voluntary liquidation before June 1, 1930, the debentures are also to be redeemed at 5 per cent. premium. In May, 1905, the debenture holders consented to the postponement until June 1, 1908, of the interest due from June 1, 1905, to December 1, 1907, both inclusive (in 1908 the payment of interest was further postponed to June 1, 1910, so as to cover that due up to and inclusive of December 1, 1909), and to the issue of the prior lien debentures, as above. In May, 1910, the debenture holders consented to forgo all claims for interest on their debentures up to and

ncluding December 1, 1915, and agreed that as from December 1, 1915, the interest on their debentures for each year shall only be payable out of the profits of the company for that year after payment of the interest for the year on the prior lien debentures.

The accounts are now made up annually to December 31, and those for 1914 were submitted in November, 1915. For the year to June 30, 1907, there was a net profit of £1,674, while interest charges amounted to £16,142; for 1907-8 there was a net profit of £5,196, while interest charges amounted to £13,613; and for 1908-9 there was a net profit, inclusive of £13,418 interest accrued on Shiré Highlands Railway debentures, of £17,170, while interest charges amounted to £32,764. In 1910 all arrears of interest on the debentures were cancelled, which enabled the company to write off the balance of £55,960 on the appropriation account, as well as all expenses connected with the debenture issues, besides utilising the remainder in making allowances for depreciation in respect of various assets. For 1909-10 there was a credit balance, after including £26,837 interest due on Shiré Highlands Railway debentures, of £23,262; in 1910-11, after including £26,837 interest due on Shiré Highlands Railway debentures, the credit balance brought forward was increased to £53,099; in 1911-12, after including £26,837 interest due on Shiré Highlands Railway debentures, the credit balance brought down was increased to £86,479; in 1912-13, after including £26,837 interest due on Shiré Highlands Railway debentures, the credit balance brought down was increased to £127,743; and in the eighteen months to December 31, 1914, after including £40,256 interest due on Shire Highlands Railway debentures, the credit balance brought down was increased to £179,795. British Chain Manufacturing Company (1913), Limited.—Being wound up. *Liquidator:* A. H. S. Glenton, 20, Collingwood Street, Newcastle-upon-Tyne.

British Coalite Company, Limited.—*Directors:* W. J. Fisher (Chairman), T. St. J. Belbin, E. J. Clamp, J. Conchie, C. E. Peczeink and S. Wellington. *Secretary:* H. Bacon. *Office:* 62, London Wall, E.C.—The company was registered June 14, 1907, to acquire patent rights for manufacturing and dealing in coalite in the United Kingdom, together with freehold sites at Barking and Wednesfield. Early in 1912 the Eticoal Syndicate, Limited, was registered to finance the British Coalite Company, but in 1913 the arrangement with the Eticoal Syndicate was cancelled under agreement, and simultaneously the capital of the British Coalite Company was written down and consolidated, and second mortgage debentures created and issued, partly in settlement with the Eticoal Syndicate. Under the capital reorganisation scheme of 1913, which was carried out in 1914, two existing ordinary shares of £1 were cancelled with the sanction of the holders thereof, the remaining 721,080 fully-paid ordinary shares of £1 were written down to shares of 4s. each, the 500,000 fully-paid deferred shares of £1 were written down to 4s. each, the reduced ordinary shares were each divided into two shares of 2s.—one ordinary and one deferred—and the ordinary and deferred shares were then consolidated into shares of £1 each, the new deferred created by the subdivision of the reduced ordinary capital and the old deferred ranking equally; further, certain shares were issued credited as fully paid to the Eticoal Syndicate. The authorised capital is now £400,000 in shares of £1, half ordinary and half deferred, and £109,858 of ordinary and £183,108 of deferred have been issued, and are fully paid. The ordinary shares rank first for non-cumulative dividends of 10 per cent. per annum, the deferred are then to take non-cumulative dividends of 8 per cent. per annum, and the two classes are to rank pari passu for further dividends, while the ordinary shares are to have priority as to capital over the deferred. There were also 5 per cent. first mortgage participating debentures for £60,000 (outstanding balance of £75,000, part of £300,000 authorised), but these were paid off at 105 per cent. in November, 1915. Under the scheme of 1913-14 6 per cent. second (now first) mortgage debentures for £75,000 were created, with interest payable March 1 and September 1, and the principal repayable at par September 1, 1933, while the company has reserved the right to pay off the debentures at any time on six months' notice; £9,000 has been issued at par, and £38,854 was subscribed for at 95 per cent., the company having paid an underwriting commission of 5 per cent., together with a commission of 25 per cent. in fully-paid ordinary shares (after reduction as above), taken at par. The proceeds of the debentures have been applied in discharging loans and other indebtedness, &c.

The accounts are made up annually to September 30, and submitted in December. No dividend has yet been paid, but debenture interest has been met to date. The works at Barking, Wednesfield, Plymouth and Hythe were closed down in 1911, but experimental work upon the company's process has of late been carried on at Barugh, Barnsley—it is claimed with satisfactory results; a contract was nearly completed with a colliery company for the erection of an initial plant capable of carbonising 200 tons of coal per 24 hours, but owing to the outbreak of war these negotiations were broken off and other arrangements have been made to erect a complete plant at Barnsley for the treatment of coal from various fields. Voting power, one vote for each ordinary or deferred share, but the deferred shares are not to be entitled to voting powers until one dividend of 10 per cent. shall have been paid on the ordinary shares. In 1914 the bondholders agreed to accept payment of coupons falling due on the bonds from August 1, 1914, to February 1, 1916, both inclusive, in deferred interest warrants, and to postpone the operation of the fixed minimum sinking fund until April 1, 1917. Coupons due August 1, 1914, were accordingly paid in deferred interest warrants, but in October, 1914, Mr. Campbell H. D. Robertson, chartered accountant, of Vancouver City, was appointed receiver and manager on behalf of the bondholders, and subsequently provisional liquidator, and nothing has so far been done in reference to the coupons on the bonds falling due in 1915.

The accounts are made up annually to December 31. Including $35,080 brought forward, there was an available sum for the year 1912 of $181,756, and after meeting loan interest and the service of the debentures, &c., there remained a balance of $12,003 to be carried forward; a large portion of the year 1912 was taken up in reorganisation, mainly owing to the destruction by fire of one of the company's mills. In 1913 the company's operations were interfered with by the Dominion government having expropriated a portion of the Vancouver property, involving the closing down of the mill at Vancouver, and, after charging interest and sinking fund for the bonds and $30,000 as reserved for depreciation and for doubtful debts, there was a loss for 1913 of $122,135, or, after deducting the credit balance brought forward, of $110,414. The amount to be paid by the government for the Vancouver property had not then been fixed, but to the end of 1913 $58,500 had been received on account. The accounts for 1914 have not been received. The bonds are quoted in the official list.

Canadian Timber Investment Company, Limited.—Reconstructed as the Pacific Timber Company, Limited.

Canadian Western Lumber Company, Limited.—*Directors:* Col. A. D. Davidson (President), J. D. McCormack (Vice-President), D. B. Hanna, R. M. Horne-Payne (London), Hon. P. Jansen, Sir W. Mackenzie, Kt., Col. A. D. McRae and Sir D. D. Mann. *Secretary:* R. P. Ormsby. *Office:* 9, Toronto Street, Toronto.—The company was registered March 31, 1910, under the laws of the dominion of Canada, to acquire blocks of freehold timber land, aggregating 75,000 acres, and certain timber leases and licences extending over about 60,460 acres, granted partly by the government of the Dominion of Canada, and partly by the province of British Columbia, the properties being situated in the Comox district of British Columbia, with fully equipped saw mills. The company also owns the whole of the share and debenture capital of the Columbia River Lumber Company, Limited, and owns or controls the whole of the ordinary share capital of the Columbia Western Lumber Yards, Limited. In October, 1914, the company defaulted in the payment of interest of £1,656,354 of 5 per cent. first mortgage debenture stock (of which £1,500,000 was issued publicly in April, 1910, at 88 per cent.); in addition to the amount named of £1,656,354 £150,000 of debenture stock had been given as collateral security for floating indebtedness. A scheme of reorganisation was brought forward, received the sanction of the debenture holders, and has been carried into effect. Under this scheme, which included the Columbia River Lumber Company, Limited, the $5,000,000 of preference shares of the Canadian Western Company became ordinary, and all arrears of cumulative dividend were cancelled, while each old ordinary share of $100 was subdivided into twenty shares of $5 each; the company created two new issues of debenture stock—£1,384,314 of 5 per cent. first mortgage debenture stock, and a similar amount of income debenture stock, and holders of the old 5 per cent. debenture stock of the Canadian Western Company received per £100 nominal of such stock £50 of new 5 per cent. first mortgage debenture stock, £50 of 5 per cent. cumulative income debenture stock, and $225 of ordinary shares; and holders of £962,273 5 per cent. debenture stock of the Columbia River Lumber Company, whose debentures were guaranteed by the Canadian Western Lumber Company, received similar securities in the same proportions, the ordinary shares of the Canadian Western Lumber Company given to the debenture stockholders of that company and the Columbia River Company being provided by the then holders of ordinary shares of the Canadian Western Company. The company provided in cash half the interest on the old Canadian Western Lumber 5 per cent. debenture, due October 2, 1914, and half the interest on the old Columbia River Lumber debenture, due December 1, 1914, the remaining half of the interest (and

in the case of the old Canadian Western debenture, the interest from October 2 to December 1, 1914) being satisfied by the issue of deferred interest warrants payable, with interest at 5 per cent. per annum on December 1, 1919, or two years after the conclusion of peace between England and Germany, whichever may be the longer.

The issued capital is now as under :—

$15,500,000 Ordinary shares of $5 fully paid, all of one class. This is the total authorised, and no dividend is to be paid on the shares until the full interest has been met on the income debenture stock for two consecutive years.

£1,384,314 Five per cent. first mortgage debenture stock. The authorised total is £1,629,314, of which £245,000 is issuable only upon redemption of an equal amount of 5 per cent. cumulative income debenture stock. Interest dates from December 1, 1914, and is payable June 1 and December 1, but until December 1, 1919, or until two years after the conclusion of peace between England and Germany, whichever shall be the longer, such interest shall only be payable if and to the extent that the joint profits of the Canadian Western and Columbia River Companies, after providing for depreciation and payment of interest on their respective floating debts, may be sufficient to meet the same, and any interest not paid is to be cumulative. The stock is repayable December 1, 1945, at par, or earlier, by the operation of a sinking fund as below mentioned. The stock is secured by a trust deed constituting it a first fixed and specific mortgage over all the freehold lands, saw-mills, railways, buildings, plant, machinery, docks, fixtures and immovable property of the Canadian Western Lumber Company, all the timber leases or licences, and other estates, rights, &c., of the Canadian Western Lumber Company, and a floating charge on the remainder of the undertaking, while it is also a charge on the whole of the debenture stock and ordinary share capital of the Columbia River Lumber Company. A sinking fund is provided at the rate of $1.50 per 1,000 feet (log scale) of logs, lumber or timber sold by the Canadian Western and Columbia River Companies, during each year ending December 31, such sinking fund to be applied in the first place in purchasing 5 per cent. first mortgage debenture stock at or below 99, or in redeeming such stock by drawings at par. The sinking fund is only to be paid to the extent that the joint profits of the Canadian Western and Columbia River Companies remaining, after providing for depreciation and payment of interest on the first mortgage debenture stock and on floating indebtedness, are sufficient for the same, but the sinking fund is to be cumulative, and is to be carried forward and provided in full out of profits of future years before any interest is paid on the income debenture stock. The company has reserved the right to redeem any of the debenture stock at par plus accrued interest on one month's notice in writing.

At the end of May, 1915, it was announced that the company had not been able to earn any profits out of which to provide for the payment of interest on this stock on June 1, 1915.

£1,384,313 Five per cent. cumulative income debenture stock, part of a total authorised of £1,384,314. The stock carries interest from December 1, 1914, payable June 1 and December 1, but until December 1, 1919, or until two years after the conclusion of peace between England and Germany, whichever shall be the longer, such interest shall only be payable if and to the extent that joint profits of the Canadian Western and Columbia River Companies, after providing for depreciation and payment of interest on their respective floating debts, and interest and sinking funds in respect of the first mortgage debenture stock, may be sufficient to meet the same, and any interest not paid is to be cumulative. The stock is repayable December 1, 1945, at par, but, after repayment of the first mortgage debenture stock from the sinking fund as detailed above, such sinking fund is then to become operative and in the same manner for the income debenture stock. The company has reserved the right to redeem any of the stock at par, plus accrued interest, on one month's notice in writing.

At the end of May, 1915, it was announced that the company had not been able to earn any profits out of which to provide for the payment of interest on this stock on June 1, 1915.

£42,096 14s. Deferred interest warrants carrying 5 per cent. per annum interest from December 1, 1914, and repayable December 1, 1919, or two years after the conclusion of peace between England and Germany, whichever shall be the longer. These deferred interest warrants were issued to provide one-half of the interest due October 2, 1914, on the Canadian Western Lumber Company's old debenture stock, together with accrued interest on that stock from October 2, 1914, to December 1, 1914, and also one-half of the interest due December 1, 1914, on the Columbia River Lumber Company's old debenture stock.

Power was reserved under the reconstruction scheme to the Canadian Western Lumber Company and the Columbia River Lumber Company to charge in priority to the new debenture stocks, in favour of bankers and others, their merchandise and certain other assets covered by the floating charge, provided that the aggregate of such charges shall not exceed the aggregate floating indebtedness of the two companies at the time the reconstruction scheme became operative. The trust deeds securing the new debenture stocks fixes this amount at $3,616,715. Further the Canadian Western Lumber Company has power to issue collateral trust notes for not exceeding £490,000, secured on such first mortgage debenture stock as may have been issued and is outstanding as collateral for loans. The British Empire Trust Company, Limited, as trustee for the holders of the new debenture stocks has the right to nominate two-thirds of the directors of the Canadian Western Lumber Company and of all subsidiary companies controlled until the full interest has been paid on

the new income debenture stock for two consecutive years and thereafter while any of the interest on that stock is in arrear.

The accounts are made up annually to December 31, and usually submitted in Toronto in April. No dividend has yet been paid on the ordinary shares. The company commenced business as from April 1, 1910. After providing for the service of the debenture stock, &c., a balance of $11,122 was carried forward at the end of 1910, in 1911 this was increased to $194,478, in 1912 to $683,425 and in 1913 to $696,713. In 1914 there was a loss on working of $102,400, and after charging $585,966 for interest on debenture stock, bank loans, &c., $566,747 for depreciation of logging plant, railways, &c., $975,515 for depreciation of investments, plant, &c., and certain other items, the credit balance of $696,713 brought forward from 1913 was converted into a debit of $1,659,330. The first mortgage debenture stock and the income debenture stock are quoted in the official list.

In July, 1913, the capital was written down by three-fourths, and the authorised capital is now £300,000 in shares of 5s.—£187,500 preferred ordinary and £112,500 deferred ordinary. The preferred ordinary shares rank first for 6 per cent. dividends, and, after payment of a like rate on the deferred, one-half of the surplus profits is to go to the preferred shares and one-half to the deferred, while the preferred have also a priority as to capital over the deferred. Of the preferred shares 500,000 and of the deferred 225,007 have been subscribed and paid up. In January, 1908, there were issued at par 5½ per cent. registered debentures, of £50 and £100 each, for £150,000, secured by a first charge on the entire assets of the company, with interest payable January 1 and July 1, and the principal repayable at par January 1, 1918, while the corporation reserved the right to redeem the whole or any part of the issue by purchase in the open market, or by repayment at a premium of 5 per cent., at any time, on six months' notice. Oil production on the original property commenced in June, 1911, while a railway, 32 miles in length, has been completed to connect the property with the government railway. Coal has been opened up, and the properties acquired from the New South Wales Shale and Oil Company have been worked. No dividend has yet been paid, and no profit and loss account has yet been submitted. Interest due January 1, 1912, and since on the 5½ per cent. registered debentures, and also on the 6 per cent. convertible debenture stock, has not been paid, and in December, 1911, Mr. Alexander Mackay, 26, Victoria Street, S.W., and 22, Meadowside, Dundee, and Mr. Arthur F. Whinney, 4B, Frederick's Place, Old Jewry, E.C., were appointed receivers and managers on behalf of the debenture holders.

In 1913 a scheme for the reorganisation of the company was brought forward by the receivers and managers, and this received the sanction of the court in July, 1913, but the plan was not proceeded with, and in December, 1914, another scheme for the re-arrangement of the capital was issued, which has received the sanction of all parties concerned, and now only awaits the approval of the court. In a circular issued to the proprietors in December, 1914, by the receivers and managers, it was stated that, as the result of experiments, a way had been found whereby the cost of procuring the shale would be reduced by about one-half, and that an experimental retort had been erected and tested, which had overcome the difficulties experienced in the past, and, further, had produced a considerable increase in the yield of oil. Experiments are being continued, and, if they bear out the results obtained from the experimental retort, the new capital requirements of the corporation, instead of £350,000 as originally contemplated, will be reduced to about £200,000, the receipt of which can be spread over two or three years. Arrangements have been made with Mr. John Fell, of Sydney, the inventor and patentee of the new retort referred to, to take the post of managing director of the corporation; Mr. Fell is the sole owner of a business of oil refiners carried on in Sydney, and the arrangement under which he will join the corporation involves the acquisition of his business by the Commonwealth Oil Corporation, such business, for the purposes of this scheme, to be converted into a limited liability company called John Fell and Co., Limited. This business will be acquired (subject to an issue of £50,000 of 6 per cent. debentures of John Fell and Co., Limited, to Mr. John Fell) in consideration of the allotment of £50,000 of preferred ordinary shares of the corporation, the amount named of £50,000 being after reduction of the preferred ordinary shares to denominations of 1s., as stated below; the debentures to be issued by John Fell and Co., Limited, are to carry the right to be exchanged, at Mr. Fell's option, for a further £50,000 of preferred ordinary shares, after reduction to 1s. each, of the Oil Corporation, which is to have an option to purchase such debentures at par on six months' notice, provided that Mr. Fell's right of exchange for preferred ordinary shares has not been exercised on the expiry of such notice, and the corporation is moreover to guarantee to Mr. Fell a salary at the rate of £4,000 per annum to be paid out of the profits of John Fell and Co., Limited (it was stated in the circular of December, 1914, that the profits of Mr. Fell's business, on the basis of the year to June 30, 1914, were in excess of the said £4,000 per annum and interest on the debentures to be issued). It has been agreed with Mr. Fell that, if within three years from March 31, 1915, the capital to be provided by the issue of prior lien stock, as stated below, is not subscribed, Mr. Fell is to have the option of purchasing the entire undertaking of the Commonwealth Oil for the sum of £150,000, and in the meantime Mr. Fell has agreed to advance to the receivers and managers such sums as may be required, up to £10,000, for the general purposes of the corporation, this £10,000 to be secured pari passu with the charge already given in respect of advances to the receivers. Under the scheme an issue of £200,000 of prior lien stock is to be created, to carry 6 per cent. interest, this stock to be offered for subscription at 90 per cent. and to be underwritten at a commission of 2½ per cent., while persons subscribing for, or underwriting, the issue are to receive 750 preferred ordinary shares and 250 deferred ordinary shares for every £100 of prior lien stock subscribed for or underwritten. Holders of the existing first mortgage debentures are to waive all claims for arrears of interest and for further interest to accrue up to one year after the date the scheme is carried out, being not later than two years after the date when the scheme is sanctioned by the court, and in consideration of such waiver there are to be issued to the holders of first mortgage debentures 200 fully-paid deferred ordinary shares for each debenture of £100, and in proportion for the £50 debentures. The second mortgage debenture stock is to be surrendered and exchanged for 25 per cent. of new 6 per cent. non-cumulative income debenture stock, and all arrears of interest on the existing second mortgage debenture stock are to be given up, the holders to receive in satisfaction thereof 200 fully-paid deferred ordinary shares for every £100 of stock held; loan creditors for about £100,000 are to accept 25 per cent. of the principal amount of such loans in non-cumulative income debenture stock in discharge of such loans and all interest thereon to date of exchange, while there are also to be issued to such loan creditors 200,000 fully-paid deferred ordinary shares; other unsecured creditors of the company for about £13,000 are to be paid in full in cash. The existing preferred ordinary and deferred ordinary shares of 5s. each are to be written down to 1s. each. When the scheme has been carried out the authorised share capital will be £75,000 in 6 per cent. preference shares of £1, £134,993 in deferred ordinary shares of £1, £200,000 in preferred ordinary shares of 1s., and £101,250 7s. in deferred ordinary shares of 1s. The preferred ordinary are to rank first for 6 per cent. dividends, payable out of profits, and, after payment of a like rate on the deferred, one-half of any remaining profits is to go to the preferred and one-half to the deferred, while the preferred are to have a priority over the deferred as to capital. Of the preferred ordinary capital £150,000, and all of the deferred ordinary will be issued, all fully paid, and in addition to the prior lien for £200,000 which it is proposed to place there will be £150,000 of first mortgage debenture stock at 6 per cent. and £125,000 of 6 per cent. non-cumulative income debenture stock.

Barnitt. *London Office:* 19-20, West Smithfield, E.C. *Head Office:* Buenos Ayres.—The company was founded in 1891, under Argentine laws, to carry on a frozen meat business. The authorised capital is $4,500,000 (gold) in shares of $100, $1,500,000 being in preferred, and $3,000,000 in ordinary, and the whole amount has been subscribed and paid up, the preferred shares having been issued privately in Antwerp in June, 1911, to provide for the acquisition of a controlling share interest in a kindred company. The profits are to be applied as follows:—(1) In setting aside 2 per cent. thereof to the reserve fund until it reaches 10 per cent. of the capital, (2) in paying a cumulative dividend of 6 per cent. on the preferred shares, (3) in paying 6 per cent. to the directors and 1 per cent. to the auditors, and (4) the balance subject to provision (if any) for special reserve funds to be distributed amongst the ordinary shares. The preferred shares, which are also entitled to priority as to capital, can be redeemed, at any time before, or upon the expiration of, the term for which the company is constituted, at 110 per cent. In May, 1908, there were issued through Messrs. Glyn, Mills, Currie and Co., at the price of 92½ per cent., £300,000 5 per cent. first mortgage debentures of £100 each, to bearer, with coupons payable May 1 and November 1, and the principal repayable at par by May 1, 1923, by the appropriation of £10,000 each half-year, applicable to purchases in the market below par, or to drawings in April or October (commencing in October, 1908) at par, while the company retains power to redeem the whole of the debentures at par at any time (now), on six months' notice; the debentures are secured by a specific first mortgage on the company's freezing establishments at Buenos Ayres and Bahia Blanca. Amount outstanding, £159,100.

The accounts are made up annually to December 31, and submitted in March at Buenos Ayres. For 1901 the dividend was 22 per cent.; for 1902, 50; for 1903, 12½; for each of the four years to 1907, 10; for 1908 and 1909, 12 each year; for 1910, 15; for 1911, 10; and for 1912 and 1913, nil. In respect of 1913, owing to the severe competition for the purchase of cattle and a large decline in the selling price of meat, there was a loss, after deducting a credit balance of $5,809 brought down, of $991,674; a dividend of 10 per cent. on the ordinary shares was declared for the year 1912, but was subsequently cancelled owing to the unsatisfactory state of affairs mentioned, and the sum ($300,000) thus retained, and the directors' and auditors' fees ($28,481), were placed against the above adverse balance, reducing it to $663,193, and this latter amount was eliminated by writing up the value of the company's properties by a like sum; the preference dividend for 1913 was provided for out of the special reserve fund. For 1914 the ordinary shares received 25 per cent. (10 per cent. in May, 1915, and 15 per cent. in November, 1915). Reserve funds, $183,492 (gold); special reserve, $354,085 (gold); insurance fund, $250,000 (gold). Director's qualification, 50 shares. The ordinary shares are to bearer, but arrangements have been made with Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C., for the issue of certificates to any shareholders desirous of subdividing or converting the bearer shares into certificates to name. The fee charged is 2s. 6d. for each certificate, and for each transfer subsequently recorded. Dividends due on the certificates issued by Messrs. Glyn are remitted by warrant to the registered addresses of shareholders. No arrangements have so far been made in regard to the conversion of the preferred shares. Bellamy. *Office:* ~~104, Winchester House, E.C.~~ The company was registered February 18, 1903, to acquire a property about 2,500 square miles in extent, situated in the state of Kelantan, in the Malay Peninsula, and held under a concession from the Raja of Kelantan. In 1912 a new agreement was entered into between the Kelantan government and the company, whereby the latter consented to the cancellation of the original concession and to the surrender of the lease over an area of 50,000 acres of agricultural land in consideration of—the payment of £300,000 in cash; the right to select blocks of land for agricultural purposes amounting in the aggregate to not more than 50,000 acres, the right of selection to continue for a period of twelve months after a plan showing the definite route of the proposed railway through Kelantan shall have been handed by the government to the company, the grants to be in perpetuity subject to a quit rent of 25 cents per acre per annum, and the areas already planted with rubber by the company to be included in the 50,000 acres; sole prospecting rights for minerals over the whole area of the concession for a period of three years from January 1, 1913, with the additional right of selecting specified areas to be acquired on mining leases (rent free) at the termination of that period; sole prospecting rights over an area of approximately 78 square miles in the Sokor district for a period of five years after the railway has passed through that district, and the right at the expiration of that period to take up mining leases in that district over an area not exceeding 3,000 acres, the leases to be granted rent free; and the extension of the dredging and timber rights until October 10, 1940. The authorised capital is £700,000 in shares of £1, of which £492,470 has been allotted and called up. There is also 6 per cent. first debenture stock for £125,000, balance outstanding of £250,000 issued in October, 1910, at par (£125,000 having been repaid on January 1, 1913, at a premium of 15 per cent.). Interest is payable April 15 and October 15, and the stock is to be redeemed at par on October 16, 1935, but any part thereof may at any time after October 15, 1917, be redeemed at the option of the company at 105 per cent., on three months' notice, and in the event of the security becoming enforceable the stock is to be repaid at par, except in the case of a voluntary winding-up of the company for the purpose of amalgamation or reconstruction, when it is to be repaid at the rate of 105 per cent.; by the trust deed the company undertook to set aside out of its surplus net profits in each year, commencing with 1911, after providing for administrative and working expenses, and all other sums properly chargeable to revenue account, and after payment of a dividend of 6 per cent. for the year on the share capital (but before carrying any sum to reserve) a sum equal to 10 per cent. of the surplus of such profits to form a sinking fund for the redemption of the stock, which fund may be applied in the redemption of stock at 105 per cent. at any time after October 15, 1917, or in purchasing stock in the market, or by tender at any price below 105 per cent. Under the trust deed the company has power to issue further debenture stock for £125,000. Certificates were issued to holders of debenture stock outstanding on January 1, 1913, entitling them to take up at any time on or before October 15, 1917, four shares at the price of 25s. per share in respect of every £5 of debenture stock held.

The accounts are made up annually to December 31, and usually submitted in October. No dividend has yet been paid, but debenture interest has been met to date. At the end of December, 1913, the company had an area of 4,897 acres planted with rubber trees; tapping commenced in 1911. Moreover, the company has a gold saving dredge on the main river, from which steady returns of gold are being obtained; carries on a trading business and transport department; and has a saw mill in operation. In the year 1911 the sales of gold and residues realised £12,219, and of rubber, £1,979, and the receipts from farms, customs, &c., produced £11,682; and in 1912 the amounts were £11,224, £14,289 and £16,219 respectively, while after providing for debenture interest and all other expenses, and writing off £2,347 for depreciation of buildings, plant, &c., there was a loss of £16,393, increasing a debit balance to £96,742, which, together with the expenses of financing the undertaking, was added to the book cost of the old concession, in reduction of which, however, the company applied the whole of the £300,000 payable by the government of Kelantan. In 1913 the total revenue was £43,587, of which £3,426 was derived from sales of gold, £17,608 from agency fees, transport, profit on trading, &c., and £21,000 from rubber sales, and after providing for debenture interest, and writing off £9,567 in respect of loss of a dredge, &c., the net result was a deficiency of £22,523. A question has arisen between the government of Kelantan and the company as to the direction which the main line of the Kelantan railway is to take and the uncertainty regarding this matter "has adversely influenced the company's working in Kelantan and has hampered and retarded the formulation of a definite policy of development; consequently, up to the date of the outbreak of war, the board were not in a position to complete any scheme for meeting effectively the future financial requirements of the company." In August, 1912, a scheme was brought forward for the consolidation of the trading of the Parent Tyre Company, Limited, and the Dunlop Rubber Company, Limited. Under this scheme the Tyre company has transferred to the Rubber company as from August 31, 1911, its goodwill, trade marks and designs, with all other assets, except the shares of the Rubber company held by the Tyre company, certain other excluded investments, amounting to £48,245, and about £4,600 of cash. The Rubber company paid to the Tyre company £1,126,790, of which about £803,000 was applied in discharging the Tyre company's liabilities, and providing for the ultimate redemption of its debentures, while the remaining £323,258 was used by the Tyre company in subscribing (in 1912) for 129,303 ordinary shares of the Rubber company of £1 each at 50s. per share. Further, the Tyre company is in perpetuity to receive a royalty of 6 per cent. on the net profits made by the Rubber company, the profits being calculated after the usual allowances have been made for depreciation and after the payment of debenture and income stock interest, and dividend on the preference shares.

The authorised capital is now £1,800,000 in shares of £1, £800,000 being 6 per cent. cumulative preference, ranking also for priority as regards capital, without further participation, and £1,000,000 ordinary, and all of the preference and £996,520 of the ordinary have been subscribed and called up, including 305,000 preference shares issued in June, 1914, at a premium of 6d. per share to provide for the repayment of £305,600 debentures of the Parent Tyre Company, Limited; 295,000 preference shares were issued in November, 1913, at par, allottees of which were given the right or option (represented by separate certificates), exercisable on January 1, 1914, or on September 1, 1914 or 1915, of subscribing for, at par, one ordinary share of £1 in respect of each complete number of 10 preference shares allotted (this option has now expired). Of the ordinary capital issued £712,468 is owned by the Parent Tyre Company, Limited (formerly known as the Dunlop Pneumatic Tyre Company, Limited), including 129,303 shares subscribed for in 1912 at 50s. each, as stated above; and 480,000 were issued in April, 1910, fully paid, as a bonus of 200 per cent. to the then shareholders. The purchase consideration for the properties of the Société Française des Pneumatiques Dunlop, Limited, was £319,614 French Dunlop income stock, entitled to a minimum rate of interest of 5 per cent., payable on June 1 and December 1, guaranteed unconditionally by the Dunlop Rubber Company, Limited, and increasing on a sliding scale up to a maximum of 10 per cent., payable out of the profits of the Rubber company earned in France (paid at the rate of 5 per cent. to June 1, 1915, with, in respect of 1909-10, an additional 2 per cent.), of which separate accounts are kept, while the stock is redeemable, at the company's option, at any time after June 1, 1920, at 25 per cent. premium; the amount of income stock is now £312,786, the difference being due to the cancellation of certain shares in the French company held by the Dunlop company when the former was taken over.

The accounts are made up annually to August 31, and submitted in November or December. For 1905-6 the dividend was about 82½ per cent.; for 1906-7, 150; and for 1907-8 and 1908-9, 100 each time. Esperanza Nitrate Company, Limited.—*Directors:* V. H. Smith (Chairman), C. E. Brooking, E. B. Forbes, A. G. Ker and E. P. Parsons. *Secretary:* F. W. Bishop. *Office:* Dashwood House, E.C.—The company was registered August 11, 1899, to take over the property of the New Julia Nitrate Company, Limited, registered May 27, 1896. The authorised capital is £21,000 in shares of 1s., £20,000 being in A shares and £1,000 in B shares, and all the A shares were allotted fully paid to the shareholders of the old company, and all the B shares have been issued in satisfaction of the bonus of 5 per cent. payable on the redemption of the first issue of debentures for £20,000. After meeting the service of the debentures, and providing for a reserve fund, one half of the remaining profits is to be distributed amongst the A shares, and the other half amongst class B. Late in 1909 the reconstruction of the debenture debt, together with certain other charges and advances, was decided upon, these debenture charges and advances being converted—as to one-half into first mortgage income debentures, and as to one-half into second mortgage income debentures, while

all the arrears of interest was funded into deferred interest warrants. There are now outstanding the following:—£25,000 of 7 per cent. B prior lien bonds (see below), repayable January 1, 1929 (postponed from January 1, 1919); first mortgage income 7 per cent. debentures of £50 each, for £70,700, part of a total authorised of £80,000, with interest payable only if earned, and non-cumulative, any interest not paid to be satisfied by the issue of deferred interest warrants payable out of future net profits after payment of current interest on the first mortgage income bonds, while the principal is to be repaid January 1, 1934, and there shall, on January 1, 1920, and each succeeding January 1, be applied the sum of £8,000 in the redemption of debentures at par, with the further power to the company at any time, after the extinction of the prior lien bonds, to purchase any of the first mortgage income debentures, either in the market or by tender, at a price not exceeding par and accrued interest, or to draw debentures for redemption at par; £34,520 10s. deferred interest warrants, carrying no interest, but to be redeemed out of the net profits remaining after providing for the service of the first mortgage income debentures; £70,700 of 7 per cent. second mortgage income debentures, of £50 each, part of £80,000 authorised, ranking next after the deferred interest warrants, and repayable January 1, 1934, with interest payable annually if earned, while after repaying the whole of the first mortgage income debentures the sum of £8,000 per annum is to be applied to the redemption of the second mortgage income debentures by purchase in the market, or by tender, at not exceeding par and accrued interest, or by drawings at par. Both classes of mortgage income debentures are registered. Loans for £18,572 have also been obtained.

A scheme of arrangement was sanctioned by the holders of prior lien bonds, first mortgage income debentures, and deferred interest warrants in July, 1915, and received the sanction of the court. Under this scheme there have been created and issued £35,000 of 7 per cent. A prior lien bonds, ranking pari passu as regards the interest with the existing £25,000 of prior lien bonds, but prior to the existing bonds as regards principal, and the old prior lien bonds are now known as B prior lien bonds. The date for the repayment of the A prior lien bonds is July 1, 1929, and they have been deposited by way of security for advances. The date for the repayment of the B prior lien bonds has been postponed from January, 1919, to July, 1929. When the company resumes the manufacture of nitrate net profits are to be applied in the first place in payment of all interest accrued on the A and B prior lien bonds, and secondly in the creation of a sinking fund to be applied in the redemption of A prior lien bonds, and subsequent thereto in the redemption of B prior lien bonds; thereafter the net profits are to be applied firstly in payment of interest on the existing first and second mortgage income debentures in their respective orders, and the balance (up to a maximum sum of £5,000 per annum) is to be applied in redemption of the first mortgage income debentures. The deferred interest warrants have been exchanged at the rate of £100 of new first mortgage income debentures for every £90 of deferred interest warrants held for an authorised total of £40,000, ranking pari passu with the existing first mortgage income debentures.

The accounts are now made up annually to June 30, and submitted in December. There has so far been no dividend on the shares, and no interest is being paid on the first or second mortgage bonds, which have been funded into deferred warrants as stated above. The oficina was closed down at the beginning of April, 1910, but was reopened in January, 1912; in respect of the six months' working to June 30, 1912, after meeting prior lien interest, there was a profit of £2,500, which was applied in reduction of suspense account; in respect of 1912-13, after meeting prior lien debenture interest, and charging interest on the first and second mortgage bonds (met in deferred warrants as stated above), there was a deficiency of £7,726; and in respect of 1913-14, after meeting prior lien debenture interest, and charging interest on the first and second mortgage income debentures (met in deferred warrants as stated above), there was a deficiency of £2,747, the debit to profit and loss then standing at £57,159, exclusive of £25,627 expenditure held in suspense chargeable against future earnings. Any deficiency in the sinking fund in one year is to be made good out of the surplus profits of any subsequent year before any dividend is paid on the ordinary shares; any income debenture stock not previously redeemed is to be repaid at par on July 31, 1945, while, after the whole of the 5 per cent. debenture stock has been paid off, the income debenture stock may be redeemed in whole or in part, at the company's option, at any time on three months' notice. Falk. *Office:* East Street, Bedminster, Bristol.—The company was registered December 10, 1901, to acquire the following businesses of tobacco manufacturers: W. D. and H. O. Wills, Limited, Bristol; Lambert and Butler, Limited, London; Messrs. Adkin and Sons, London; Hignett's Tobacco Company, Limited, London; Messrs. Franklyn, Davey & Co., Bristol; Edwards, Ringer and Bigg, Limited, Bristol; John Player and Sons, Limited, Nottingham; Hignett Bros. and Co., Limited, Liverpool; William Clarke and Son, Limited, Liverpool; Richmond Cavendish Company, Limited, Liverpool; Messrs. In February, 1909, it was decided to divide the then £6,000,000 of deferred ordinary capital into equal proportions of A deferred ordinary and B deferred ordinary, while in 1915 it was decided to change the name of the then 5½ per cent. cumulative preference shares to A 5½ per cent. cumulative preference shares; the preferred ordinary to B 6 per cent. non-cumulative preference shares; the A deferred ordinary shares to C 10 per cent. non-cumulative preference shares; and the B deferred ordinary to ordinary shares. Of the issued ordinary capital £358,327 is in restricted ordinary shares; these are shares which were formerly held by the American Tobacco Company, and, as the result of litigation in the United States of America under the Sherman Anti-Trust Law, were distributed amongst shareholders in the American Tobacco Company; under the articles of association of the Imperial Tobacco Company ordinary shares can only be disposed of to the holders of other ordinary shares, and holders of the "restricted" ordinary shares are not at liberty to compete with the holders of other ordinary shares as purchasers of shares of that denomination, but if by means of transfer a "restricted" ordinary share becomes the property of a holder of an ordinary

share, such "restricted" share ceases to be so restricted, and becomes an ordinary share; further, in the event of a fresh issue of ordinary shares, any such of the ordinary issued to holders of "restricted" ordinary would themselves become "restricted" ordinary.

International Steam Pump Company.—*Directors:* W. Guggenheim (Chairman), N. M. Clark (Assistant Secretary), C. P. Coleman, L. P. Feustman (a Vice-President and General Manager), T. B. Gannett, S. R. Guggenheim, G. G. Henry, W. C. Lane, E. M. Leventritt (a Vice-President), H. E. Moller and A. N. The authorised share capital is $47,000,000 in shares of $100, $17,500,000 being in 6 per cent. cumulative preferred, and $29,500,000 in common, and $11,350,000 of preferred and $17,762,500 of common shares have been allotted and are fully paid, while there are also preferred shares outstanding of two subsidiary companies to the amount of $2,460,556. In October, 1909, there was sold here by the London County and Westminster Bank, Limited, 41, Lothbury, E.C., on behalf of the purchasers, $5,800,000 first lien twenty-year 5 per cent. sinking fund gold bonds to bearer of this company at the price of £201 10s. per bond of £205 15s. 3d. ($1,000). The bonds are of $1,000, $500 and $100 each, and have also their value in sterling, francs and florins expressed on them; they form part of a total authorised of $12,000,000, of which $10,000,000 has been placed, and $9,347,900 is now outstanding. The bonds are secured by a first mortgage on all the properties directly owned, and by the deposit of securities of subsidiary companies; they have coupons payable March 1 and September 1 (September 1, 1914, and since not paid), and the principal is repayable September 1, 1929, subject to redemption, at the company's option, on any interest date previously at 103 per cent. and accrued interest on eight weeks' notice, while the company covenanted to provide a sinking fund of $200,000 annually (commenced September 1, 1912), increasing gradually to $450,000, to be applied to the redemption of bonds by purchase in the market at or below 103 per cent. and accrued interest, or by drawings at that price. Payments have been made, free of United States taxes, in New York in gold coin, or in London (by the London County and Westminster Bank, Limited), Amsterdam, or Paris. The bonds may be registered as to principal only in New York, or may be converted into bonds registered both as to principal and interest in amounts of $1,000, $5,000 or $10,000, and such registered bonds may be reconverted into bearer bonds. There are also outstanding first mortgage bonds of subsidiary companies for $692,100.

The accounts have been made up annually to September 30. The preferred dividend was regularly paid for several years to February, 1913, but there has been no distribution on these shares since, while there has been no dividend on the common shares since April, 1905, when $\frac{1}{2}$ per cent. was paid.

In August, 1914, receivers were appointed for the company, and interest due September 1, 1914, on the 5 per cent. sinking fund gold bonds was not met, nor was any payment subsequently made on these bonds. Committees were appointed for the protection of the holders of the various classes of securities, and in August, 1915, a plan and agreement of reorganisation was published under the authority of these committees, and the deposit of securities was called for, the depositary in London for the sinking fund bonds being the Guaranty Trust Company of New York, 33-35, Lombard Street, E.C. The reorganisation plan stated that, after allowing for depreciation, obsolete inventories, bad debts and other deductions, the value of the property of the company and its subsidiaries as a going concern as at September 30, 1914, without allowance for patents or goodwill, was $19,289,000, and for the five-and-a-half years to September 30, 1914, the average annual profits, after making full reserves for depreciation, had been $1,116,742; although the profits for the three years to September 30, 1912, 1913 and 1914, had been $925,988, $779,223, and $565,553 respectively. The plan of reorganisation provides for the introduction of fresh cash capital sufficient to retire certain underlying securities, and also for considerable expenditures required to bring the company's factories up to date, as well as sufficient working capital. The scheme eliminates certain subsidiary organisations. Under

the plan three new classes of shares are created—Class A preferred for $10,000,000, of which $5,639,063 is to be issued, entitled to cumulative annual dividends of 7 per cent. per annum and to a priority as regards both capital and dividends, but such priority over the class B preferred is to be continued only until both classes of preferred shares shall have received their full dividends for three consecutive years, and the class A preferred shares are to be redeemable at the option of the new company at 115 per cent. and accrued dividends; class B preferred for $11,000,000, of which $10,126,892 is to be issued, entitled to annual dividends of 6 per cent. per annum, non-cumulative for three years, and then cumulative, and for a priority as regards capital over the common shares, the class B preferred to be redeemable at the option of the new company at 105 per cent. and accrued dividends; and common for $15,000,000, of which $12,923,037 are to be issued. The shares of all three classes not required for immediate issue under the reorganisation plan are to provide a reserve for additional capital. Holders of preferred and common shares in the International Steam Pump Company are assessed $12·50 per share, and the preferred shareholders, after making this payment, will receive per $100 share $12·50 of new class A preferred shares and $34 of new common shares; holders of common shares, after making the cash payment of $12·50 per share (payable to the Guaranty Trust Company of New York as to 40 per cent. on October 14, and 20 per cent. each time on December 31, 1915, February 14 and April 14, 1916), will receive $12·50 of new class A preferred shares and $17 of new common shares; holders of sinking fund bonds will receive for principal and arrear interest an equivalent amount of class B preferred shares, plus 35 per cent. of principal and accrued interest in new common shares; and the holders of $2,000,000 of preferred shares of one of the subsidiary companies (Henry R. Worthington) are to receive an equivalent amount of class A preferred shares, to be represented by certificates of interest, giving to the syndicate managers the right at any time within six months from issue to pay such holders cash for said shares at 105 per cent. of the par value and plus accrued dividends. The syndicate managers, in consideration of the underwriting of the cash requirements, are to get $1,000,000 of new common shares. The $692,100 of bonds of the subsidiary companies are to be replaced by somewhat similar new securities. In the discretion of the reorganisation committee the shares of all classes or of any class of the new company may be deposited with the voting trustees. The reorganisation plan was declared operative in September, 1915.

J. R. Roberts' Stores, Limited.—*Directors:* C. G. Musgrave (Chairman), T. Rodger (Managing Director) and F. Thorne. *Secretary:* A. G. Martin. *Office:* 78-102, The Broadway, Stratford, E.—The company was registered July 24, 1894, to acquire the drapery and furnishing business of Mr. J. R. Roberts. In order to provide for a debit to profit and loss, &c., a reconstruction of the capital was carried through in 1911. The authorised capital was formerly £202,500 in shares of £1, £2,500 being in founders' shares, £150,000 in ordinary shares, and £50,000 in 6 per cent. cumulative preference shares, no dividend on the last-mentioned having been paid since January, 1903. Under the scheme of 1911 the preference shareholders abandoned their right to all arrears of dividend, while one-half of the amount was converted and subdivided into ordinary shares of 6s. 8d. each, and the dividend on the remaining £25,000 of preference shares was reduced to 4 per cent. per annum cumulative; the old ordinary shares were written down by two-thirds, and each old founders' share was converted into three new ordinary shares of 6s. 8d. each. The authorised capital is now £102,500, £25,000 being in 4 per cent. cumulative preference shares of £1, having a priority also as to capital, and £77,500 in ordinary shares of 6s. 8d., and the whole amount has been subscribed and paid up. The redemption particulars of the debenture stock were modified by the reconstruction scheme of 1911, under which the trustees are to apply all moneys in their hands, and the net proceeds from the sale of any freehold or leasehold property, in the redemption of the debenture stock, and in any year in respect of which dividends amounting to 3 per cent. shall be paid on the ordinary shares the company is to appropriate £1,000 to the redemption of debenture stock, and for every 1 per cent. of dividend paid beyond 3 per cent. an equivalent sum is to be applied in the redemption of debenture stock, the maximum for redemption purposes to be £2,500 per annum; amount outstanding, £86,460.

The accounts are made up annually to February 14, and submitted in April. For the eight years to 1910-11 only debenture interest was met, and at February 14, 1911, there was a debit balance of £8,422, which was wiped out in the reduction of capital, as above. For 1911-12 and 1912-13 the full dividend was paid on the reduced preference capital, but there was no ordinary dividend; and for 1913-14 and 1914-15 the ordinary shares received 2½ per cent. each time.
